

Table of Contents

摘要	i
Abstract.....	ii
Table of Contents	iii
Introduction.....	1
Materials and Methods	3
1. Animal and retina preparation	3
2. Gene gun labeling	4
3. Image acquisition and measurements of morphological parameters	5
4. Data analysis	6
Results.....	8
The G7 ganglion cell	8
The G1 ganglion cell	9
The G4 ganglion cell	9
The G5 ganglion cell	9
The G9 ganglion cell	10
The G10 ganglion cell	11
The G11 ganglion cell.....	11
The unclassified cells.....	12
Discussion.....	13
Visual deprivation and retinal development	13
Unbiased sampling of gene gun?	15
